MODEL: N-SERIES

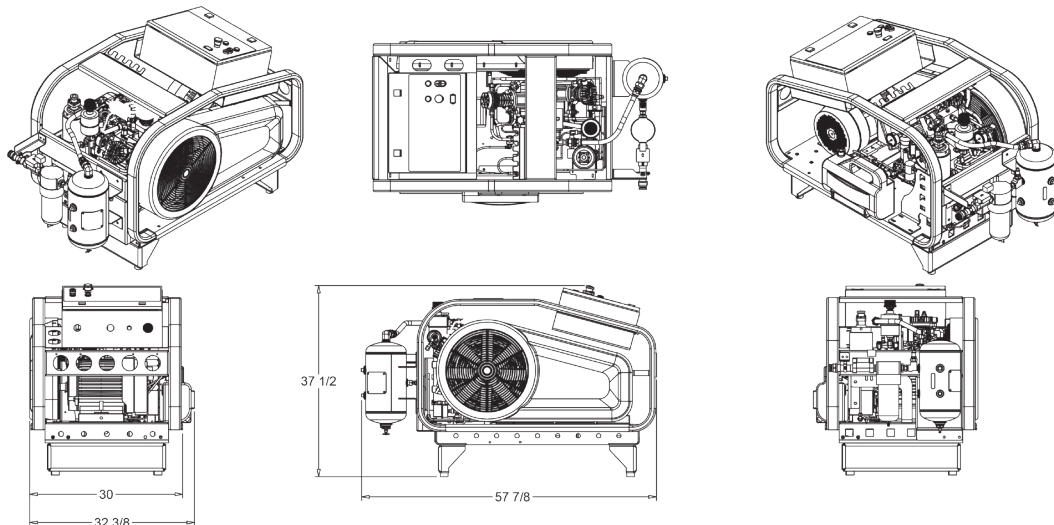

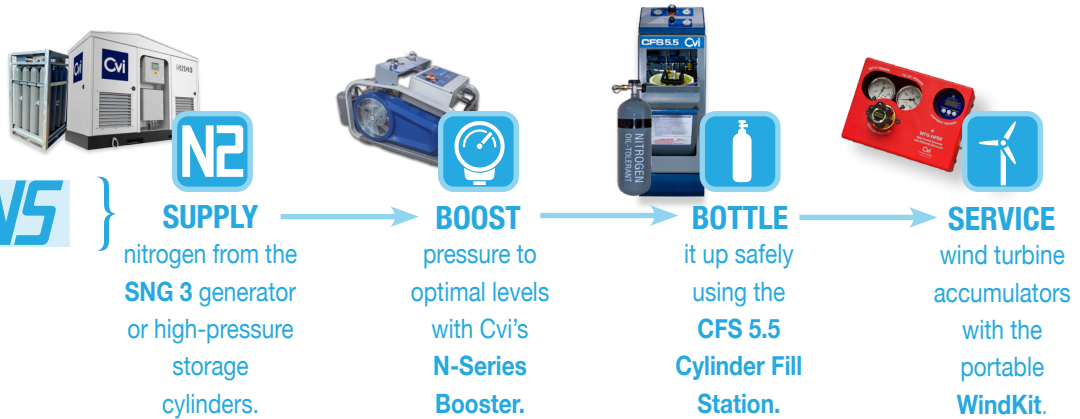

PART NUMBER: 410111

Why Choose the N-Series Dive Mate Booster?

- **Ultra-Fast Nitrogen Fills:** Boosts nitrogen pressure up to **5000 psig**, refilling **88 SCFM** cylinders to **4500 psig** in **under 10 minutes**, drastically reducing downtime.
- **Precision & Reliability:** Delivers consistent, high-pressure performance with an inlet regulator for safe, accurate nitrogen servicing every time.
- **Built for the Field:** Rugged design, perfectly suited for wind turbine maintenance in even the most challenging environments.
- **Maximize Efficiency & Safety:** Integrates seamlessly with the WindSuite system, streamlining operations while enhancing technician safety at elevation.
